

"The school is the last
expenditure upon which
America should be
willing to economize."
Franklin D. Roosevelt

PLEASE
Vote

The members of the Elmwood Park Education Association bring decades of experience to their classrooms. **But they're also parents, taxpayers and residents themselves** - facing many of the same societal and economic pressures Americans struggle with.

As the subject of education continues to be evaluated, we urge the community to vote for the upcoming school budget.

For a child's future is something that should never be economized.

We believe a solid education
relies on three factors:
The Teacher, the Parent and the Student.
